FOUR BOOKS THAT SHOOK THE WORLD

At the zenith of his business career, Henry Ford, Sr., America's foremost native son and industrial genius, sensed that a terrific effort was being made to rob him of his business, and to manipulate it into the hands of money-changers. Mr. Ford had the distinct impression that these manipulators were being advised by powerful Jewish financiers. Henry Ford called to his office the most brilliant and intelligent research men of his time. He commissioned them to make a complete and thorough study of the International Jew. Their findings were published in *The Dearborn Independent* which, at that time, was the official organ of the Ford Motor Company. No expense was spared and it is estimated that several million dollars were spent by Mr. Ford on this project. The original articles were carried in serial form in *The Dearborn Independent* and later published in book form. Made up into four volumes, a complete set of these books was given to each purchaser of a Ford automobile. Perhaps the most astonishing part of Henry Ford's trail-blazing work is the fact that as early as 1920 Mr. Ford had in his possession a copy of *The Protocols of the Learned Elders of Zion*, and every chapter of his books carried a preface with a text from *The Protocols* or some published statements of prominent Jews. *The Protocols* had been smuggled out of Imperial Russia. The Russian Intelligence Service had obtained them at the turn of the century during a Zionist Congress held in Basel, Switzerland. Since that time, Jews and many of their most powerful and influential friends and fellow-travelers from around the world have mounted a desperate effort to discredit the content of *The Protocols* and even to deny the existence of the document. Over half a century has elapsed and there can be absolutely no doubt that the horrifying contents of *The Protocols* have been, and still are, being fulfilled. A great howl went up from the Jews as soon as *The International Jew* (as the books were now called) hit the scene. Every device in the plentiful and vengeful arsenal of the Jews was used against Henry Ford, from abuse to smear, character assassination, ridicule, physical threat, and boycott. The pressure was constant, consistent, and heavy, always with the one aim, to stop the printing of *The International Jew*.

Demands escalated and pressure increased to recall the books and to recant. An apology was demanded of Henry Ford. Incredible as it seems, publication was stopped and all available copies were destroyed. An apology was actually extracted from Mr. Ford, but it appeared over the forged signature of one of Mr. Ford's lieutenants—Harry Bennett—and Henry Ford himself denied to the day of his death ever having signed such an apology.

Following this, Jews and their allies went into the bookstores and bought and destroyed all copies which could be found. Sneak thieves were hired to visit libraries and comb bookshelves to steal and destroy all copies. This

made the books so rare that they became an instant "antique" item. It has remained a collector's item, often bringing hundreds of dollars per set.

In the meantime, volumes were sent as gifts to leading figures all over the world. It is thought that Mr. Ford's long-time private secretary, Ernest Liebold, a man of German background, may have been responsible for introducing the books and their invaluable content to leading business and political figures.

No one knows how, through whom, or when the first volume fell into the circle of men around a new name in German politics—Adolf Hitler. He himself was unable to read English, and so he was given translated excerpts. Hitler was so impressed, he started quoting from the material in his own speeches, and soon a publisher was found for a German edition. Thus, little known to the world, a great American genius became the teacher and mentor of Germany's new leader.

With his thirst for truth whetted, Hitler conducted a similar study into Jewry's involvement in German and European affairs. In this way, a great axis of understanding was forged between America and Europe, Henry Ford, Sr., the American of immense wealth, was brought to his knees and failed to awaken his people; Adolf Hitler, the political leader, went on to power in Germany.

The dangers of Jewish influence to German society so well outlined by Ford in the American context were checked by National Socialist Germany. Jews were removed from business, cultural posts, teaching positions, from the press and the armed forces.

Hitler, too, suffered defeat militarily at the hands of an unholy alliance consisting so unfortunately of his own racial brothers who had been incited into this world-wide war by the same Jewish money-lenders who had been exposed by Henry Ford, Sr.

Now, 46 years after Germany's defeat, and Henry Ford's death, this new edition is offered to you in an unabridged, complete as the original, version. These books belong in every White home, school, church, university, and library. To ignore the vital lessons they teach will mean race suicide and disaster for America and the world.

Today, the Jews have their own state—Israel. Let them go there, live there, work there, and create any kind of society that they desire. God only knows there has been enough blood-letting, misery, cheating, lying, and wholesale murder to bring forth that State of Israel; so after just compensation to the Palestinians for the loss of their stolen homeland, the Jews should now be forced to live in the unholy state they have created, for they do not belong among us culturally, spiritually, nor much less racially.
